

# Time to Decide

Do we, the members of UKIP, support traditional family values or not?

## Post-Brexit Britain for Family, Community and Nation

**Family failure costs the taxpayer £51bn/year\***

**The costs are:**

- Tax credits and single parent benefits;
- Housing benefit, council tax benefit, emergency housing following domestic violence;
- Physical and mental health costs to NHS and social services;
- Children in care including fostering and adoption. Social services costs to single parents including supervision of children and care of elderly relatives;
- Bad behaviour at school, exclusions and alternative education;
- Vandalism and criminal damage;
- Police, prisons, court and legal services.

**We spend more on family failure than on defence**
